Let's break the Echo Chambers Together.

µLearn is a synergic philosophy of education, with a culture of mutual learning through micro peer groups. We are here to assist you in breaking through the echo chambers and free you from the shackles you have grounded yourself in.

Community Partners at µLearn.

The Story of Aami MuStory

Meet Aami, an eager learner hungry for growth! Join her voyage through the captivating µVerse, where she seizes opportunities, builds learning circles, and immerses herself in events, emerging industry-ready with newfound skills and confidence.

Exploring the Events at µLearn.

Each week multiple events are conducted at µLearn. Events full of stories, learning experience, inspirations and much more awaits you there. Events are key to opening the doors of Interactions.

Inspiration Station Radio

ISR is an event conducted at µLearn weekly. Here students come in and share their stories and inspirations for listeners who like to learn.

Office Hours

Office Hours, an hour-long weekly virtual meet-up hosted by the respective interest groups will review project , discuss new activities, and brainstorm on specific topics, under the guidance of mentors.

Learning Circles

An informal mechanism for bringing together learners who have interests in similar topics across different fields and disciplines. A fantastic way to spend your limited time learning and exploring with a group of people with the same interests!

Knowing more about µLearn!

Curious to know more about µLearn? Wanna explore what all wonders we can do as a team? Come, witness it by yourself!

The Impact of µLearn.

Over the last year, we as a community have made an impact on a significant number of students, mentors, and facilitators enabling them to gain more knowledge about the ecosystem of learning and was able to upskill themselves.

Learn and Grow Together as a Community

Are you ready to learn, grow and upskill yourself to the next level?

Come, be a part of the community, and let's start learning in a new better way. Call in your friends as well, because things are going to change once you experience it and it is more effective when done with a group.

Karma Points • Interest Groups • Learning Circles • Enablement Tasks.
and to know more..

Working Ecosystem of µLearn.

The Academia and Technology Focus Group (ATFG) framework was created and maintained to assist students in becoming industry ready. µLearn, associated with this ATFG framework, is a synergic philosophy of education with a culture of mutual learning through micro peer groups. This ecosystem, harbouring a network of participants such as universities, online communities, nodal agencies and the industry, integrates its participants and their contributions into a holistic system, providing mutual benefits to all.

µLearn Testimonials

Many have expressed their admiration and support for µLearn, highlighting its innovative approach to education and professional development. We're extremely grateful for all the kind words and we shall strive to keep innovating the Education Ecosystem.

Polish your skills through 'µLearn' to make students industry ready!

Enablers are faculty who are continuous learners with social capital, connecting within the µLearn framework, and networking with various other enablers or students. They guide and mentor students, enhancing their growth and social capital as well.

Offering Enablers short-term industry internships to stay connected with current practices and emerging technologies.

TA's and presenters can be moved to the front of the class.

Providing a platform for enablers to gain insights from industry mentors.

Enablers can enhance their skills and stay updated with emerging technologies.

Workshops focused on technology, no-code solutions, Git, GitHub, and participation in open-source programs to enhance enablers' knowledge.

Enabler meet-ups with industry and peers offer statewide networking, benefiting both their network and their institution's reputation.

Monthly District Meetups: Virtual/Offline event to check the status of involvement in colleges.

Zonal Meetups: Offline event organized with the help of our three zonal heads once in 3 months.

+ 40 enablers

October 20th 2023

Are you passionate about helping others reach their full potential? ☹️

Join us at Learning Fest, where you can enhance your skills as a mentor

👉 Explore new teaching techniques, network with fellow enablers, and help shape the future of education

+ 11 enablers

Art of Teaching is an annual event that spotlights enablers' teaching talents. They can showcase their skills through videos, simplifying concepts for students. In the last edition, we received 150+ video entries and rewarded winners with cash prizes.

Enablers should create a profile via app.mulearn.org, and they should ensure to register as a faculty member by choosing the option "I'm teaching in an Institute". Once you get a profile, go to "Connect Discord" and join our Discord server.

Once you join the server, our bot, Aaronchetan will send you a DM asking you to connect your µ-ID, which is provided in the µlearn profile. Once it's connected, you can start your onboarding process.

Now you will have access to the #lvl1-info channel, and as you do the tasks, you will progress through the levels. Once you reach level 4, you will have the option to edit Interest Groups on your µlearn profile page.

Contact Us for your queries: enabler@mulearn.org

+ 11 enablers

Art of Teaching is an annual event that spotlights enablers' teaching talents. They can showcase their skills through videos, simplifying concepts for students. In the last edition, we received 150+ video entries and rewarded winners with cash prizes.

Enablers should create a profile via app.mulearn.org, and they should ensure to register as a faculty member by choosing the option "I'm teaching in an Institute". Once you get a profile, go to "Connect Discord" and join our Discord server.

Once you join the server, our bot, Aaronchetan will send you a DM asking you to connect your µ-ID, which is provided in the µlearn profile. Once it's connected, you can start your onboarding process.

Now you will have access to the #lvl1-info channel, and as you do the tasks, you will progress through the levels. Once you reach level 4, you will have the option to edit Interest Groups on your µlearn profile page.

Polish your skills through 'µLearn' to make students industry ready!

Enablers are faculty who are continuous learners with social capital, connecting within the µLearn framework, and networking with various other enablers or students. They guide and mentor students, enhancing their growth and social capital as well.

Offering Enablers short-term industry internships to stay connected with current practices and emerging technologies.

TA's and presenters can be moved to the front of the class.

Providing a platform for enablers to gain insights from industry mentors.

Enablers can enhance their skills and stay updated with emerging technologies.

Workshops focused on technology, no-code solutions, Git, GitHub, and participation in open-source programs to enhance enablers' knowledge.

Enabler meet-ups with industry and peers offer statewide networking, benefiting both their network and their institution's reputation.

Monthly District Meetups: Virtual/Offline event to check the status of involvement in colleges.

Zonal Meetups: Offline event organized with the help of our three zonal heads once in 3 months.

µLearn Art of Teaching 2.0

µLearn is back with Art of Teaching to honor teachers who mould our future generation. µLearn Foundation is partnering with Google developers, KTU and Kerala University for Art of Teaching 2.0.

Event Partners

Theme: Lessons of The Future.

What is Art of Teaching???

Art of teaching is a contest, custom made for Educators. In-order to participate in this contest, all one has to do is create a 3 minute video of them teaching a specific topics in a creative way or learn android and create a 3 minute summary of the course Android Development with Kotlin.

Android Development with Kotlin by Google.

If you choose Android Development as the content you would have to learn the Android Development with Kotlin and have to create a 3 minute video summary of the course.

Lessons of Future

The participants can choose any topic which is related to emerging topics in their field and they can create video on that topic. Some sample topics are given below.

Android Development with Kotlin by Google.

Lessons of Future

The participants can choose any topic which is related to emerging topics in their field and they can create video on that topic. Some sample topics are given below.

Art of Teaching First Edition

The First Edition of Art of Teaching was a huge success with more than 100 distinct entries, all of which used creative teaching methods to simplify a topic for better understanding by a student.

The Former Judging Panel

We needed some really creative people with amazing mentoring skills to judge all your submissions. Listed below were our judges for the first edition of Art of Teaching.

Dr T M George

Former Principal at Mar Baselios College of Engineering and Technology

Ann Andrews

Product | Technology & Data Strategy | NYU & Columbia Fellow

Rajeev J Sebastian

CEO Alok Software Private Limited

Art of Teaching Archives

Take a look at the top submissions by the teachers from the first edition of The Art of Teaching.

Kerala's Biggest Innovation Celebration is here!

Young Innovators Programme 5.0

YIP 5.0 is here and it's bigger and more impactful than ever before!

Backed by the Kerala government. This year's initiative is set to provide an incredible opportunity for college and university students to showcase their innovation skills and create real-world impact.

Download the YIP App Now!

Brainstorm, Collaborate, And Create

YIP Idea Registration Procedure

Click Here to go to the Pre-Registration page. Enter all your details in the Pre-Registration Form and Complete the OTP Verification. By Now you would have received an email with login credentials, you can now login with that.

Click Here to Login, After Logging in Click the Open the left navbar option and from the options listed there click the Profile Completion option. Fill in all your details correctly and according to the mentioned specifications. Finally Submit the form and click OK.

After completing your Profile and submitting it, You can check the left navbar again to find the Voice of Stakeholder(VOS Module) option. By clicking that you will be directed to the course page where you can complete it. Post it with the hashtag #yip5.0-vos to gain 400 Karma Points

After completing the VOS Course and attending the quiz there. You can form a team consisting of minimum 2 members and maximum 5 members by clicking the Group Formation Button from the left navbar. Only one person from a group is required to form the group while the other members can join it using the team's name and password.

After forming a team and finding an idea which suits the given themes, the person who formed the team can submit the idea by going to the Idea Submission Option from his/her Navbar. Post your idea submission certificate with the hashtag #yip5.0-idea to gain 800 Karma Points. You could submit upto 2 ideas per person.

After the submission of the idea, it requires the approval of the respective Institution and you may contact the concerned authority for the approval of your idea.

Once your Idea is approved by the institution, it is put forward for a preliminary evaluation and teams are selected from District Level and State Level and are awarded prizes.

Finally the winners are announced and out of the total teams selected at state level the best of those teams are provided financial and mentoring support to implement their ideas.

µLearn Wiki Syllabus

WikiSyllabus is a collaborative initiative undertaken to assist students in finding a means to connect their education to "what's new" in the industry. As a dynamic website, this wiki hosts, enriches, links, extends and updates the university curriculum.

Our Motive

The goal is to make WikiSyllabus the only source you will ever need to get your hands on for all your academic needs on a particular subject. The initiative is a collaborative effort amongst teachers and students. A further contribution from multiple sources and constant refurbishing of the content make the resources for each topic or subject unique, thereby serving as your ultimate go-to guide.

The Pathway

Choose a subject from the KTU curriculum or a recent occurrence in the field. Collect contributions from a team of enthusiastic learners and experts on that particular topic. Facilitate the material to the students across, where it is free for anyone to add on and upgrade the quality. As this process advances and passes on to the next batch, the materials keep improving with better-perfected content.

µLearn Campus Chapters

Campus cultures vary based on student interests. µLearn campus chapters unite students, offer tailored resources, and meet individual needs, promoting the µLearn culture.

What is a µLearn Chaptership?

At µLearn, the concept of learning comes with a motivation and that at µLearn is the Gamification of learning. At µLearn a Chaptership is a recognition, acknowledgement given to a Campus when they unlock the level 5 of Activities .This Acknowledgement unlocks many benefits for these campuses. Campuses with the Chaptership title gets access to exclusive perks from the parent, The µLearn Foundation.

Road to Chaptership

Level 1 : The Orientation

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

Level 2 : The Enablement

To Maximize the impact of your campus chapter's µLearn initiative, it is essential to establish the importance of completing the Basic Enablement Tasks and forming Interest Groups. These critical components will help lay the foundation for sustained engagement, effective communication, and collaborative learning within your campus community.The Second level journey gets completed by attaining 4000 Karma points achieved by 50 Students.

Level 3 : The Learning

Take your campus chapter's learning journey to the next level by set up learning circles, which provide a platform for students to collaborate, exchange ideas, and learn from one another. By establishing this you can create a supportive and dynamic learning environment that fosters academic excellence and personal growth, kick-starting their learning activities.The third level journey gets completed if 10 Students on delta earn 4000 Karma points in interest group activities.

Level 4 : The Execom

Upon earning the chaptership for your campus chapter, it is now time to take the next crucial steps towards establishing a strong foundation for the µLearn initiative. Form a campus executive committee (execom) comprising of dedicated individuals who share your passion for fostering a culture of learning and growth.The fourth level journey gets completed if the execom formation is done.

Level 5 : The Chaptership

At this stage, you have earned the esteemed status of chaptership for your campus chapter.This achievement signifies your successful completion of the first level in the journey towards fostering a culture of

continuous learning and academic excellence within your campus community. Now you have gained benefits of the parent, The μ Learn Foundation.

Find a Campus Chapter

Select your zone and district to find the campus chapters near you.

μ Learn Campus Chapters are a concept that are to be implemented in-house by the Students for the Students.

Apply today to start your μ Learn Campus Chapter

Changes always starts from within! Want to establish a Campus Chapter at your Institution? The Application Process is as simple as the three steps mentioned below. Take that 1st step today and create a difference

1). Application

Start by telling us about your campus chapter and who's leading it

2). Onboarding Call

Hop on to an onboarding call with someone from the μ Learn Core Team

3). First Meeting

Schedule your campus chapter's first meeting and get going.

4). μ Learn Chaptership

Implement chaptership to unlocks benefits from μ Learn Foundation .

Why μ Learn for Campuses?

Regular Communities teach us upskilling and knowledge at a limited resource, post which they all tend to fall into the echo chamber and leave students with the belief that they are well versed while just being at an average level.

Students get privileged access to core and relevant courses, such as those provided by our community partner Google.

μ Learn campus chapters help to break the echo chambers and move out and experience the real world. Get mentored by experienced company professionals from various domains.

At μ Learn, the students get connected with the rest of the community chapters, so they are in an infinite loop of upskilling and connecting with new opportunities.

Level 1 : The Orientation

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

Level 2 : The Enablement

To Maximize the impact of your campus chapter's µLearn initiative, it is essential to establish the importance of completing the Basic Enablement Tasks and forming Interest Groups. These critical components will help lay the foundation for sustained engagement, effective communication, and collaborative learning within your campus community.The Second level journey gets completed by attaining 4000 Karma points achieved by 50 Students.

Level 3 : The Learning

Take your campus chapter's learning journey to the next level by set up learning circles, which provide a platform for students to collaborate, exchange ideas, and learn from one another. By establishing this you can create a supportive and dynamic learning environment that fosters academic excellence and personal growth, kick-starting their learning activities.The third level journey gets completed if 10 Students on delta earn 4000 Karma points in interest group activities.

Level 4 : The Execom

Upon earning the chaptership for your campus chapter, it is now time to take the next crucial steps towards establishing a strong foundation for the µLearn initiative. Form a campus executive committee (execom) comprising of dedicated individuals who share your passion for fostering a culture of learning and growth. The fourth level journey gets completed if the execom formation is done.

Level 5 : The Chaptership

At this stage, you have earned the esteemed status of chaptership for your campus chapter. This achievement signifies your successful completion of the first level in the journey towards fostering a culture of continuous learning and academic excellence within your campus community. Now you have gained benefits of the parent, The µLearn Foundation.

Find a Campus Chapter

Select your zone and district to find the campus chapters near you.

µLearn Campus Chapters are a concept that are to be implemented in-house by the Students for the Students.

Apply today to start your µLearn Campus Chapter

Changes always starts from within! Want to establish a Campus Chapter at your Institution? The Application Process is as simple as the three steps mentioned below. Take that 1st step today and create a difference

1). Application

Start by telling us about your campus chapter and who's leading it

2). Onboarding Call

Hop on to an onboarding call with someone from the µLearn Core Team

3). First Meeting

Schedule your campus chapter's first meeting and get going.

4). µLearn Chaptership

Implement chaptership to unlocks benefits from µLearn Foundation .

Why µLearn for Campuses?

Regular Communities teach us upskilling and knowledge at a limited resource, post which they all tend to fall into the echo chamber and leave students with the belief that they are well versed while just being at an average level.

Students get privileged access to core and relevant courses, such as those provided by our community partner Google.

µLearn campus chapters help to break the echo chambers and move out and experience the real world. Get mentored by experienced company professionals from various domains.

At µLearn, the students get connected with the rest of the community chapters, so they are in an infinite loop of upskilling and connecting with new opportunities.

µLearn Campus Chapters

Campus cultures vary based on student interests. µLearn campus chapters unite students, offer tailored resources, and meet individual needs, promoting the µLearn culture.

What is a µLearn Chaptership?

At µLearn, the concept of learning comes with a motivation and that at µLearn is the Gamification of learning. At µLearn a Chaptership is a recognition, acknowledgement given to a Campus when they unlock the level 5 of Activities .This Acknowledgement unlocks many benefits for these campuses. Campuses with the Chaptership title gets access to exclusive perks from the parent, The µLearn Foundation.

Road to Chaptership

Level 1 : The Orientation

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

Level 2 : The Enablement

Learn and Grow Together as a Community

Are you ready to learn, grow and upskill yourself to the next level?

Come, be a part of the community, and let's start learning in a new better way. Call in your friends as well, because things are going to change once you experience it and it is more effective when done with a group.

Karma Points • Interest Groups • Learning Circles • Enablement Tasks.
and to know more..

Working Ecosystem of μ Learn.

The Academia and Technology Focus Group (ATFG) framework was created and maintained to assist students in becoming industry ready. μ Learn, associated with this ATFG framework, is a synergic philosophy of education with a culture of mutual learning through micro peer groups. This ecosystem, harbouring a network of participants such as universities, online communities, nodal agencies and the industry, integrates its participants and their contributions into a holistic system, providing mutual benefits to all.

μ Learn Testimonials

Many have expressed their admiration and support for μ Learn, highlighting its innovative approach to education and professional development. We're extremely grateful for all the kind words and we shall strive to keep innovating the Education Ecosystem.

This Policy is issued by µLearn, which includes its parent, subsidiaries and affiliates (together, "µLearn", or "We" or "us" or "our(s)") and is addressed to individuals outside our organisation with whom we interact, including but not limited to customers, visitors to our websites, offices and other users (together, "You") of our Services. By registering to µLearn platform, you are implicitly consenting to have your profile registered for e-learning, reporting purposes and helping µLearn improve the research quality. You are hereby agreed that the data you are freely deciding to share is intended to keep your profile up to date and complete. This data will be processed in order to manage our e-learning process and offer you more visibility and accessibility to opportunities which will match with your profile. You agree that while creating a profile, it implies a transfer of your profile data to µLearn entities located across Kerala. The protection of your data is assured by our internal Information Security, and is processed with your consent and for the legitimate interest of µLearn Group.

We use your information to provide, analyse, administer, enhance and personalize our Services and marketing efforts, to process your registration, and to communicate with you on these and other topics.

We use reasonable administrative, logical, physical and managerial measures to safeguard your personal information against loss, theft and unauthorised access, use and modification. These measures are designed to provide a level of security appropriate to the risks of processing your personal information.

We save your Information in our database in order to improve our Website and user experience and in accordance with our TOS. If you wish that your Information be permanently deleted from our database when you stop using our Services, please notify us at mulearnadmin@gtechindia.org µLearn is an Indian company. If you are located outside India and choose to provide information to us, µLearn transfers your Information to our servers in India. India may not have the same data protection laws as the country in which you initially provided the Information. Therefore while we transfer your Information to India, we will protect it as described in this Privacy Policy. By visiting our Website or providing µLearn with your Information, you fully understand and unambiguously consent to this transfer, processing and storage of your Information in India.

We retain your Personal Data for as long as is required to fulfil the activities set out in this Privacy Policy, for as long as otherwise communicated to you or for as long as is permitted by Applicable Law. Under Applicable Law, you may have a number of rights, including: the right not to provide your Personal Data to us; the right of access to your Personal Data; the right to request rectification of inaccuracies;

the right to request the erasure, or restriction of Processing, of your Personal Data; the right to object to the Processing of your Personal Data; the right to have your Personal Data transferred to another Controller; the right to withdraw consent; and the right to lodge complaints with Data Protection Authorities. We may require proof of your identity before we can give effect to these rights.

µLearn's Website may contain links to sites operated by third parties whose policies regarding the handling of information may differ from ours. These websites and platforms have separate and independent privacy or data policies, privacy statements, notices and terms of use, which we recommend you read carefully. In addition, you may encounter third party applications that interact with µLearn's Services.

The validity and interpretation of this Privacy Policy shall be governed by the laws of the India.

This Policy may be amended or updated from time to time to reflect changes in our practices with respect to the Processing of Personal Data, or changes in Applicable Law. We encourage you to read this Policy carefully, and to regularly check this page to review any changes we might make in accordance with the terms of this Policy.

The Gears Behind The Machine.

The 'µLearn' community's growth to this moment would not have been possible without the team's soul and heart. Our team has a big impact on how well we do our work. Here is the team to which we are addressing.

Executive Committee

The Executive Members are those who serve as the community's skeleton and propel it forward from the rear.

Managing Director Faya

CEO, KSUM

Vice President, TCS

Co-Founder, Wattlecorp Cybersecurity

Founder, Beagle Security

CEO, Nucore

CEO Revyrie Global

Associate Professor CUSAT

µLearn HQ

The HQ members are the ones who are the backbone of the community. They are the ones who are responsible for the smooth functioning of different teams and the community as a whole.

Partner Engagement

Community Engagement

Operations and Development

Data Documentation and Finance

Strategic Initiatives, Operations and Outreach

Web Master

Program Manager

µLearn Associates

Associate - Backend Developer

Polish your skills through 'µLearn' to make students industry ready!

Enablers are faculty who are continuous learners with social capital, connecting within the µLearn framework, and networking with various other enablers or students. They guide and mentor students, enhancing their growth and social capital as well.

Offering Enablers short-term industry internships to stay connected with current practices and emerging technologies.

TA's and presenters can be moved to the front of the class.

Providing a platform for enablers to gain insights from industry mentors.

Enablers can enhance their skills and stay updated with emerging technologies.

Workshops focused on technology, no-code solutions, Git, GitHub, and participation in open-source programs to enhance enablers' knowledge.

Enabler meet-ups with industry and peers offer statewide networking, benefiting both their network and their institution's reputation.

Monthly District Meetups: Virtual/Offline event to check the status of involvement in colleges.

Zonal Meetups: Offline event organized with the help of our three zonal heads once in 3 months.

+ 40 enablers

October 20th 2023

Are you passionate about helping others reach their full potential? 🧐

Join us at Learning Fest, where you can enhance your skills as a mentor

🔗 Explore new teaching techniques, network with fellow enablers, and help shape the future of education

+ 11 enablers

Art of Teaching is an annual event that spotlights enablers' teaching talents. They can showcase their skills through videos, simplifying concepts for students. In the last edition, we received 150+ video entries and rewarded winners with cash prizes.

Enablers should create a profile via app.mulearn.org, and they should ensure to register as a faculty member by choosing the option "I'm teaching in an Institute". Once you get a profile, go to "Connect Discord" and join our Discord server.

Once you join the server, our bot, Aaronchetan will send you a DM asking you to connect your µ-ID, which is provided in the µlearn profile. Once it's connected, you can start your onboarding process.

Now you will have access to the #lvl1-info channel, and as you do the tasks, you will progress through the levels. Once you reach level 4, you will have the option to edit Interest Groups on your µlearn profile page.

µLearn Art of Teaching 2.0

µLearn is back with Art of Teaching to honor teachers who mould our future generation. µLearn Foundation is partnering with Google developers, KTU and Kerala University for Art of Teaching 2.0.

Event Partners

Theme: Lessons of The Future.

What is Art of Teaching???

Art of teaching is a contest, custom made for Educators. In-order to participate in this contest, all one has to do is create a 3 minute video of them teaching a specific topics in a creative way or learn android and create a 3 minute summary of the course Android Development with Kotlin. Android Development with Kotlin by Google.

If you choose Android Development as the content you would have to learn the Android Development with Kotlin and have to create a 3 minute video summary of the course.

Lessons of Future

The participants can choose any topic which is related to emerging topics in their field and they can create video on that topic. Some sample topics are given below.

Android Development with Kotlin by Google.

If you choose Android Development as the content you would have to learn the Android Development with Kotlin and have to create a 3 minute video summary of the course.

Lessons of Future

The participants can choose any topic which is related to emerging topics in their field and they can create video on that topic. Some sample topics are given below.

Art of Teaching First Edition

The First Edition of Art of Teaching was a huge success with more than 100 distinct entries, all of which used creative teaching methods to simplify a topic for better understanding by a student.

The Former Judging Panel

We needed some really creative people with amazing mentoring skills to judge all your submissions. Listed below were our judges for the first edition of Art of Teaching.

Dr T M George

Former Principal at Mar Baselios College of Engineering and Technology

Ann Andrews

Product | Technology & Data Strategy | NYU & Columbia Fellow

Rajeev J Sebastian

CEO Alok Software Private Limited

Art of Teaching Archives

Take a look at the top submissions by the teachers from the first edition of The Art of Teaching.

Kerala's Biggest Innovation Celebration is here!

Young Innovators Programme 5.0

YIP 5.0 is here and it's bigger and more impactful than ever before!

Backed by the Kerala government. This year's initiative is set to provide an incredible opportunity for college and university students to showcase their innovation skills and createreal-world impact.

Download the YIP App Now!

Brainstorm, Collaborate, And Create

YIP Idea Registration Procedure

Click Here to go to the Pre-Registration page. Enter all your details in the Pre-Registration Form and Complete the OTP Verification. By Now you would have received an email with login credentials, you can now login with that.

Click Here to Login, After Logging in Click the Open the left navbar option and from the options listed there click the Profile Completion option. Fill in all your details correctly and according to the mentioned specifications. Finally Submit the form and click OK.

After completing your Profile and submitting it, You can check the left navbar again to find the Voice of Stakeholder(VOS Module) option. By

clicking that you will be directed to the course page where you can complete it. Post it with the hashtag #yip5.0-vos to gain 400 Karma Points

After completing the VOS Course and attending the quiz there. You can form a team consisting of minimum 2 members and maximum 5 members by clicking the Group Formation Button from the left navbar. Only one person from a group is required to form the group while the other members can join it using the team's name and password.

After forming a team and finding an idea which suits the given themes, the person who formed the team can submit the idea by going to the Idea Submission Option from his/her Navbar. Post your idea submission certificate with the hashtag #yip5.0-idea to gain 800 Karma Points. You could submit upto 2 ideas per person.

After the submission of the idea, it requires the approval of the respective Institution and you may contact the concerned authority for the approval of your idea.

Once your Idea is approved by the institution, it is put forward for a preliminary evaluation and teams are selected from District Level and State Level and are awarded prizes.

Finally the winners are announced and out of the total teams selected at state level the best of those teams are provided financial and mentoring support to implement their ideas.

µLearn Wiki Syllabus

WikiSyllabus is a collaborative initiative undertaken to assist students in finding a means to connect their education to "what's new" in the industry. As a dynamic website, this wiki hosts, enriches, links, extends and updates the university curriculum.

Our Motive

The goal is to make WikiSyllabus the only source you will ever need to get your hands on for all your academic needs on a particular subject. The initiative is a collaborative effort amongst teachers and students. A further contribution from multiple sources and constant refurbishing of the content make the resources for each topic or subject unique, thereby serving as your ultimate go-to guide.

The Pathway

Choose a subject from the KTU curriculum or a recent occurrence in the field. Collect contributions from a team of enthusiastic learners and experts on that particular topic. Facilitate the material to the students across, where it is free for anyone to add on and upgrade the quality. As this process advances and passes on to the next batch, the materials keep improving with better-perfected content.

µLearn Campus Chapters

Campus cultures vary based on student interests. µLearn campus chapters unite students, offer tailored resources, and meet individual needs, promoting the µLearn culture.

What is a µLearn Chaptership?

At µLearn, the concept of learning comes with a motivation and that at µLearn is the Gamification of learning. At µLearn a Chaptership is a recognition, acknowledgement given to a Campus when they unlock the level 5 of Activities .This Acknowledgement unlocks many benefits for these campuses. Campuses with the Chaptership title gets access to exclusive perks from the parent, The µLearn Foundation.

Road to Chaptership

Level 1 : The Orientation

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

Level 2 : The Enablement

To Maximize the impact of your campus chapter's µLearn initiative, it is essential to establish the importance of completing the Basic Enablement Tasks and forming Interest Groups. These critical components will help lay the foundation for sustained engagement, effective communication, and collaborative learning within your campus community.The Second level journey gets completed by attaining 4000 Karma points achieved by 50 Students.

Level 3 : The Learning

Take your campus chapter's learning journey to the next level by set up learning circles, which provide a platform for students to collaborate, exchange ideas, and learn from one another. By establishing this you can create a supportive and dynamic learning environment that fosters academic excellence and personal growth, kick-starting their learning activities.The third level journey gets completed if 10 Students on delta earn 4000 Karma points in interest group activities.

Level 4 : The Execom

Upon earning the chaptership for your campus chapter, it is now time to take the next crucial steps towards establishing a strong foundation for the µLearn initiative. Form a campus executive committee (execom) comprising of dedicated individuals who share your passion for fostering a culture of learning and growth.The fourth level journey gets completed if the execom formation is done.

Level 5 : The Chaptership

At this stage, you have earned the esteemed status of chaptership for your campus chapter.This achievement signifies your successful completion of the first level in the journey towards fostering a culture of continuous learning and academic excellence within your campus community.Now you have gained benefits of the parent, The µLearn Foundation.

Find a Campus Chapter

Select your zone and district to find the campus chapters near you.

µLearn Campus Chapters are a concept that are to be implemented in-house by the Students for the Students.

Apply today to start your µLearn Campus Chapter

Changes always starts from within! Want to establish a Campus Chapter at your Institution? The Application Process is as simple as the three steps mentioned below. Take that 1st step today and create a difference

1). Application

Start by telling us about your campus chapter and who's leading it

2). Onboarding Call

Hop on to an onboarding call with someone from the µLearn Core Team

3). First Meeting

Schedule your campus chapter's first meeting and get going.

4). µLearn Chaptership

Implement chaptership to unlocks benefits from µLearn Foundation .

Why µLearn for Campuses?

Regular Communities teach us upskilling and knowledge at a limited resource, post which they all tend to fall into the echo chamber and leave students with the belief that they are well versed while just being at an average level.

Students get privileged access to core and relevant courses, such as those provided by our community partner Google.

µLearn campus chapters help to break the echo chambers and move out and experience the real world. Get mentored by experienced company professionals from various domains.

At µLearn, the students get connected with the rest of the community chapters, so they are in an infinite loop of upskilling and connecting with new opportunities.

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

Level 2 : The Enablement

To Maximize the impact of your campus chapter's µLearn initiative, it is essential to establish the importance of completing the Basic Enablement Tasks and forming Interest Groups. These critical components will help lay the foundation for sustained engagement, effective communication, and collaborative learning within your campus community.The Second level journey gets completed by attaining 4000 Karma points achieved by 50 Students.

Level 3 : The Learning

Take your campus chapter's learning journey to the next level by set up learning circles, which provide a platform for students to collaborate, exchange ideas, and learn from one another. By establishing this you can create a supportive and dynamic learning environment that fosters academic excellence and personal growth, kick-starting their learning activities.The third level journey gets completed if 10 Students on delta earn 4000 Karma points in interest group activities.

Level 4 : The Execom

Upon earning the chaptership for your campus chapter, it is now time to take the next crucial steps towards establishing a strong foundation for the μ Learn initiative. Form a campus executive committee (execom) comprising of dedicated individuals who share your passion for fostering a culture of learning and growth. The fourth level journey gets completed if the execom formation is done.

Level 5 : The Chaptership

At this stage, you have earned the esteemed status of chaptership for your campus chapter. This achievement signifies your successful completion of the first level in the journey towards fostering a culture of continuous learning and academic excellence within your campus community. Now you have gained benefits of the parent, The μ Learn Foundation.

Find a Campus Chapter

Select your zone and district to find the campus chapters near you. μ Learn Campus Chapters are a concept that are to be implemented in-house by the Students for the Students.

Apply today to start your μ Learn Campus Chapter

Changes always starts from within! Want to establish a Campus Chapter at your Institution? The Application Process is as simple as the three steps mentioned below. Take that 1st step today and create a difference

1). Application

Start by telling us about your campus chapter and who's leading it

2). Onboarding Call

Hop on to an onboarding call with someone from the μ Learn Core Team

3). First Meeting

Schedule your campus chapter's first meeting and get going.

4). μ Learn Chaptership

Implement chaptership to unlocks benefits from μ Learn Foundation .

Why μ Learn for Campuses?

Regular Communities teach us upskilling and knowledge at a limited resource, post which they all tend to fall into the echo chamber and leave students with the belief that they are well versed while just being at an average level.

Students get privileged access to core and relevant courses, such as those provided by our community partner Google.

μ Learn campus chapters help to break the echo chambers and move out and experience the real world. Get mentored by experienced company professionals from various domains.

At μ Learn, the students get connected with the rest of the community chapters, so they are in an infinite loop of upskilling and connecting with new opportunities.

µLearn Campus Chapters

Campus cultures vary based on student interests. µLearn campus chapters unite students, offer tailored resources, and meet individual needs, promoting the µLearn culture.

What is a µLearn Chaptership?

At µLearn, the concept of learning comes with a motivation and that at µLearn is the Gamification of learning. At µLearn a Chaptership is a recognition, acknowledgement given to a Campus when they unlock the level 5 of Activities .This Acknowledgement unlocks many benefits for these campuses. Campuses with the Chaptership title gets access to exclusive perks from the parent, The µLearn Foundation.

Road to Chaptership

Level 1 : The Orientation

Establishing the need for µLearn within your campus community, promote a culture of continuous learning and growth . Also emphasize the importance of grit and perseverance in the face of adversity, helping students develop the resilience and determination needed to overcome obstacles and achieve their academic and personal goals.This is the first level in the journey of attaining µLearn Chaptership for your campus.

A graduate in Electrical and Electronics Engineering from Trinity College of Engineering Thiruvananthapuram, Amritha joined the GTech µLearn platform through the college placement cell, with the intent of receiving a good opportunity to develop excellent leadership and team management skills. Interestingly this platform was also her first time interacting with her co-campus ambassadors from the same college. She, along with her co-campus ambassadors, utilized the online meeting platforms that became widely popular with the advent of the COVID-19 lockdown to connect with their collegemates. Via online sessions, they were able to discuss what µLearn stood for and what they could gain by being a part of this

community, and get them onboarded on to the **μLearn** Discord platform. She and her team were able to pique the interest of the majority in a college consisting of approximately 400 students. Although they noticed that the activity had reduced post the onboarding stage, her team was successful in motivating their peers to actively participate, steering them to the top position in the college leaderboard. Her college still stands as one of the top - performing colleges among the 200 + onboarded across the state. Amritha joined the platform as a learner and was shortly nominated as one of the student ambassadors of her college. She has then gone ahead to take up roles of a district lead and a moderator and also grabbed an internship opportunity with **μLearn**. Her contributions to the community helped her attain the top performer award of the **GTech μLearn** community during the kick-start of **μLearn 2.0**. She believes that to create an impact, all you need to do is take initiative, step out of your comfort zone and have faith in yourself. With her having completed over a year of the student ambassador journey and currently pursuing higher education, she still intends to continue contributing to the community and help every individual who struggles in their professional journey.

A graduate of Computer Science and Engineering from St. Joseph's College of Engineering and Technology, Palai, Sandra currently works at South Indian Bank's digital and technology division. Being an enthusiast about community involvement and also being part of a couple of communities, it was only natural that Sandra took a step ahead into the **μLearn** community as well, to see what it offered her. She took the stride in her fourth year of college to join **μLearn** as a campus ambassador. Right from the first interaction she had with this community, Sandra realised the importance of the **μLearn** platform and believed it to be a place where she could acquire more learning than a college could offer. Sandra's

active involvement in several meetings and the community in general, along with her strong communication skills earned her the confidence of the people she worked with, which led to her appointment as the µLearn Kottayam district head. She gained a lot of knowledge, developed her organisational skills, and made connections with many wonderful members of the community while serving as the district head. With her college harbouring multiple communities already, it was not easy to introduce them to yet another community and present its unique value. But she succeeded to get through the challenges with the help of her team, the placement cell and college mentors, and a campus chapter of µLearn was established in her college. An introductory class for each year and MCA was initially created, which greatly aided in the growth of the community. Her efforts helped the students bridge their skill gaps, identify their actual potential and interests, and understand the value of going beyond the boundaries of the college curriculum. Due to the enrollment of a large number of students in the µLearn Discord platform and their active engagement, her institution was awarded the position of the top - performing college for the academic year 2021-2022 by Sri K N Balagopal, Kerala's honourable finance minister. Alongside the district head stint, she also worked as an intern for the YIP Program organized by K-DISC and was given the responsibility of serving as the program's state lead. Now exposed to a broader avenue, she had the opportunity to teach students at various colleges and introduce them to new things while being an intern. This boosted her confidence, enhancing her organisational, communication, and leadership skills which helped her thrive in her job interviews. Working with µLearn made her well-equipped to handle challenging questions in interviews. What we will face in the workplace is very different from what we learn in college. Theory and application are definitely two, and joining learning communities gives you a head start in being industry-ready. µLearn is one such community which definitely helps you become industry-ready and land your dream job.- Sandra Pramod
